**Additional ingredients:**

- Composted turkey litter: N/A
- Hydrolysed feather meal: N/A
- Potassium sulphate: 7778-80-5
- Ammonium sulphate: 7783-20-2
- Iron sulphate: 7782-63-0
SECTION 3. Hazards Identification

Emergency overview: No significant immediate hazards for emergency responses are known.

CAUTION: Contact with dust may cause discomfort and/or mild irritation to skin, eyes, nose and lungs. Avoid breathing dust. Do not ingest. May irritate mouth, stomach, etc. Wash thoroughly after handling.

Physical state (25°C/77°F): Brown solid granules, organic odour

SECTION 4. First Aid Measures

Inhalation: Bring subject to a well ventilated area. Contact a physician if symptoms persist.

Skin: Wash with plenty of water.

Eyes: Flush eyes with large quantities of running water for a minimum of 15 minutes. Remove contact lenses. Rinse the entire surface of the eye and lid with water. Call a physician if eye irritation occurs.

Ingestion: Harmful if swallowed. Seek medical care. Do not induce vomiting.

SECTION 5. Fire Fighting Measures

Flammability limits in Air (%): n/a UEL: n/a LEL: n/a

Fire extinguishing media: Use media appropriate to surrounding fire.

Fire fighting procedures: Use a stream of water to cool containers and surfaces exposed to fire and to dissipate vapours. Use a self-contained respirator.

Other fire or Explosion Hazards: Dust from this product may represent a moderate fire risk. Incomplete combustion may produce carbon monoxide. Toxic gases may be released at elevated temperature.

SECTION 6. Accidental Release Measures

Small release: Stop leak or spill. Collect for re-use. Contain runoff by diking. Prevent spills from entering water courses, basement or closed area. Wear appropriate personal protective equipment for cleanup.

Release to water: Reclaim as much product as possible to avoid further contamination.

SECTION 7. Handling and Storage

Handling: Wear suitable personal protective equipment. Avoid inhalation and prolonged or repeated contact with eyes and skin.

Storage: Store in a dry, ventilated area, away from food and seed. Keep at ambient temperature. Keep out of reach of children.

SECTION 8. Exposure Controls and Personal Protection

Exposure limits: n/a

Personal protection: Skin contact with the product should be prevented with the use of appropriate protective clothing and gloves (nitrile gloves are recommended). Wear safety glasses with side-shields to avoid eye contact.

Respiratory: If dust is generated, use a NIOSH-approved respiratory mask.

Ventilation: Provide good ventilation if dusty conditions prevails.
SECTION 9. Physical and Chemical Properties

Physical state: Solid
Appearance: Brown granules
Odour: Organic odour
Melting point (°C/°F): n/a
Bulk Density: 45-60 lbs/ft³, 720-960 kg/m³
Solubility: Partially soluble in water
pH: n/a

SECTION 10. Stability and Reactivity

Under Normal Conditions: Stable
Under Fire Conditions: Stable
Hazardous Polymerization: Will not occur
Conditions to Avoid: Extreme temperatures
Materials to Avoid: Strong oxidizing agents, chlorates, hypochlorites
Hazardous Decomposition or Combustion Products: Sulfur oxides, ammonia

SECTION 11. Toxicological information

Recommended Exposure Limit: None recommended for this product
Toxicological Data: None known
Carcinogenicity Data: Ingredients of this products are not listed as carcinogens by OSHA or NTP and are not rated by IARC or ACGIH.
Reproductive Effects: No data available
Mutagenicity Data: No data available
Teratogenicity Data: No data available
Synergistic Materials: None known

Effects of exposure when
Inhaled: Dust is irritating to nose, throat and respiratory tract. May cause coughing or sneezing.
In contact with the skin: Prolonged and repeated contact may cause mild irritation.
In contact with the eyes: Dust may cause mild irritation and due to abrasiveness may cause eye damage if untreated.
Ingested: Ingestion may cause gastrointestinal upset, abdominal pain and diarrhea.
Other health effects: High concentration of urea in the blood increases the risk of glaucoma.

SECTION 12. Ecological information

May be harmful to aquatic life. In sufficient quantity may deplete oxygen required by aquatic life. May cause eutrophication of ponds and lakes.

Deactivating chemical: None required

SECTION 13. Disposal considerations

Suitable for use as agricultural/horticultural fertilizer. Consult local authorities. Do not dispose of waste with normal garbage or into water systems.
SECTION 14. Transport Information

DOT/TDG Classification Not classified under DOT (USA) or TDG (Canada).

SECTION 15. Regulatory Information

Classifications:
- DOT: Not regulated
- WHMIS: Not regulated
- Protective clothing: Health hazard (1), Fire hazard (1), Instability hazard (0), Specific hazard (None)

Definitions of abbreviations:
- ACGIH: American Conference of Governmental Industrial Hygienists
- CAS: Chemical Abstract Service
- DOT: Department of Transportation
- IARC: International Agency for Research on Cancer
- LEL: Lower Explosive Limit for Flammable Gases and Vapor
- NFPA: National Fire Protection Association
- NIOSH: National Institute for Occupational Safety and Health
- NTP: National Toxicology Program
- OSHA: Occupational Safety and Health Administration
- TDG: Transport of Dangerous Goods
- UEL: Upper Explosive Limit for Flammable Gases and Vapor
- WHMIS: Workplace Hazardous Materials Information System
