2018
GOLF COURSE
ACCESSORIES

At the GIS show in 2017 we had the pleasure of sharing an aisle and meeting a fellow Canadian from the Bernhard booth by the name of – Steve Wilson. At so many of these trade shows we all meet some fascinating people, and Steve is one of the many we've met over the 30+ years that Bayco Golf has been in the Golf Industry.

Steve shared with us that he & his wife were going to be taking part in a climbing expedition to Mount Kinabalu in Sabah, Malaysia. He suggested that if we could provide him with a Canadian Flag to take on this grueling trek, he would do us proud and fly this Canadian Flag with pride when he reached the 4095M peak (13,435 Feet). He made it (8.5 km, 2-day hike) and did just that as you can see in the picture above.

From everyone at Bayco Golf - Congratulations to Steve & his wife on making this incredible journey!

In his own words: "I almost quit a couple of times. However once you see the sunrise and view from above the clouds, it makes all the physical effort worthwhile. You start day two at 2am and summit around 5:30am in time to see the sunrise."

303-ELITE Individual Reflector

Smart Stick Poles

From the original creator of Prism Flagstick technology Bayco Golf brings you the line, of flagsticks and top flag pole prisms, from Laser Link.

Mathematically, six prisms is the number for absolute, 100% reflection coverage making the 6 eye reflection products, hotter, faster and more accurate targets for all rangefinders.

Prism Flagsticks available in 1/2" and 3/4" flagsticks
 Available lengths 7ft, 7.5ft & 8ft
 Custom Striping is available, please contact your nearest Bayco Dealer for more information.

Smarty Reflectors

Brass Insert

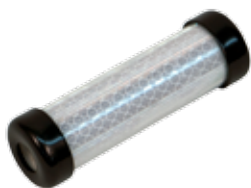

These simply screw on to the top of any flagstick, they are made with a brass bushing so that the threads can't be stripped easily. They are available in 6 Eye, 5 Eye (Available Everywhere).

Part No.

SIMPLY THE FINEST QUALITY CUSTOM GOLF COURSE FLAG

Unlimited Colors/Combinations - one great price

- *Multiple logos per flag
- *Each flag can have its own different logo(s) eg. 18 holes, 18 different logos
- *Text can be added ie. "1st annual" or "Year of Event"

No set up or artwork charges with good artwork:

Artwork to be high resolution Vector format. Most common file include .ai, .eps and .pdf.

What is Dye Sublimation?

Dye Sublimation uses solid dyes under heat & pressure to produces photo-lab quality images on fabric. Color is absorbed directly into the material, making it more durable and less vulnerable to fading than other prints.

Fabric Choices:

Poplin Flags with Blocker for 2 Sided Dye

- *Excellent medium for heavy graphics or two sided graphics.
- *An optional blocker can be added to allow no show through from back to front.
- *Heaviest of the options especially when a blocker is added, this try-layer flag needs wind to move.
- **Learn how our golf flags can be a new source of revenue for your course.....watch the video now @ www.baycogolf.com

Dura Flag

- *Single sided dyed and approx. 95% show through to the other side.
- *Very stable fabric in medium to strong wind due to the fact that the fabric is porous and allows some wind to pass through.

Poly Silk Flutter Flags (recommended for events)

- *Single sided dye that has 98% show through to the other side.
- *Very lightweight. Works great in low breeze or cross breeze settings.
- *Great in arid or semi-arid environments as it is always fluttering even in a 1 mph breeze.

In-Stock Dye Sublimated Flags

Choose a stock designed flag. All of these flags are our Double Sided Poplin Flags. These flag designs are in stock and available for immediate shipping.

Sizes Available:
14" x 20" - Canada, USA, Awareness, Revenge

Hole-in-White for Golf Cup Turf Whitener

The Hole-in-White process, performed immediately following the golf cup being set, was designed to be efficient and easy to use. The patented formula is fast-drying and harmless to the turf and soil. Yielding over 80 holes per can, a single case of paint will last the everyday user up to 2 months.

New Technology - In order to prevent dripping, we have created a cup protector

How to use:

- 1) Set cup protector on inside lip of cup.
- 2) Position device over a freshly cut hole.
- 3) Slide HIW turf whitener into position over the device.
- 4) Simply press down on can and turn in a uniform manner.

Part No.

- PT1** Hole-in-White (12 x 12oz. Cans & Cup Protector)
- PT2** Hole-in-Pink
- TL1** Paint Tool for Hole-in-White Paint
- CP1** Cup Protector
