Calgary, Alberta T2C 3G3
Canada

For MEDICAL, TRANSPORTATION or other EMERGENCY call: 1-800-334-7577 (24 hours/day)
For Product Information call: 1-888-283-6847

SECTION 2. HAZARDS IDENTIFICATION

NOTE: Please refer to Section 11 for detailed toxicological information.

Emergency Overview
Caution! May cause eye irritation. Avoid contact with eyes. Harmful if absorbed through skin. May cause sensitization by skin contact. Avoid contact with skin and clothing. Wash thoroughly with soap and water after handling.

Physical State
water-dispersible granules

Odor
none

Appearance
brown

Exposure routes
Eye contact, Skin contact, Skin Absorption, Inhalation

Immediate Effects

Eye
May cause mild irritation to eyes. Do not get in eyes.

Skin
May cause slight irritation. May cause sensitisation by skin contact. Harmful if absorbed through skin. Avoid contact with skin and clothing.

Ingestion
Do not take internally.

Inhalation
Do not breathe dust or spray mist.
Chronic or Delayed Long-Term

This product is not listed as a carcinogen by ACGIH, NTP, IARC or OSHA. However, it may contain crystalline silica (quartz), a substance which has been listed as a carcinogen by ACGIH, NTP and IARC. Crystalline silica is a naturally-occurring mineral component of many sands and clays. Although the carcinogenic potential of crystalline silica in humans is controversial, it must be considered if it is inhaled under excessive exposure conditions. The respirable portion of the silica that may be contained in this product, however, is small, such that inhalation exposure during anticipated conditions of use is minimal. This product or its components may have long term (chronic) health effects.

Medical Conditions Aggravated by Exposure

As with all materials which can cause upper respiratory tract irritation, persons with a history of asthma, emphysema, or hyperreactive airways disease may be more susceptible to overexposure.

Target Organs

liver

Potential Environmental Effect

Toxic to fish and aquatic organisms.

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

SECTION 4. FIRST AID MEASURES

General

When possible, have the product container or label with you when calling a poison control center or doctor or going for treatment.

Eye

Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a physician or poison control center immediately.

Skin

Take off contaminated clothing and shoes immediately. Wash off immediately with plenty of water for at least 15 minutes. Call a physician or poison control center immediately.

Ingestion

Call a physician or poison control center immediately. Rinse out mouth and give water in small sips to drink. DO NOT induce vomiting unless directed to do so by a physician or poison control center. Never give anything by mouth to an unconscious person. Do not leave victim unattended.

Inhalation

Move to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a physician or poison control center immediately.
Notes to physician
Signs and Symptoms
To date no symptoms are known.

Treatment
Appropriate supportive and symptomatic treatment as indicated by the patient's condition is recommended. There is no specific antidote.

SECTION 5. FIRE FIGHTING MEASURES

Flash point
not applicable

Autoignition temperature
320 °C / 608 °F

Lower Flammability Limit
not applicable

Upper Flammability Limit
not applicable

Explosiveness
no data available

Fire and Explosion Hazards
In the event of fire the following may be released:
- Hydrogen cyanide (hydrocyanic acid)
- Hydrogen fluoride
- Carbon monoxide (CO)
- Nitrogen oxides (NOx)

Suitable extinguishing media
Dry chemical, Foam, Carbon dioxide (CO2), Water

Unsuitable extinguishing media
None known.

Fire Fighting Instructions
Evacuate personnel to safe areas. Avoid contact with spilled product or contaminated surfaces. Contain the spread of the fire-fighting media. Keep out of smoke. Do not allow run-off from fire fighting to enter drains or water courses.

After fire is extinguished, do not turn on any ignition source until the area is determined to be free from explosion or fire hazard.

Firefighters should wear NIOSH approved self-contained breathing apparatus and full protective clothing.

Dust explosion class
no data available

SECTION 6. ACCIDENTAL RELEASE MEASURES
Personal precautions
Keep unauthorized people away. Isolate hazard area. Avoid contact with spilled product or contaminated surfaces. Use personal protective equipment.

Methods for cleaning up
Avoid dust formation. Sweep up or vacuum up spillage and collect in suitable container for disposal. Collect and transfer the product into a properly labelled and tightly closed container. Decontaminate tools and equipment following cleanup. Clean contaminated floors and objects thoroughly, observing environmental regulations. Contaminated soil may have to be removed and disposed.

Additional advice
Do not allow to enter soil, waterways or waste water canal.

SECTION 7. HANDLING AND STORAGE

Handling procedures
Handle and open container in a manner as to prevent spillage. Avoid contact with skin, eyes and clothing. Maintain exposure levels below the exposure limit through the use of general and local exhaust ventilation.

Keep away from heat and sources of ignition.

Storing Procedures
Store in a cool, dry place and in such a manner as to prevent cross contamination with other crop protection products, fertilizers, food, and feed. Store in original container. Store in a place accessible by authorized persons only.

Work/Hygienic Procedures
Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, using the toilet or applying cosmetics.

Remove Personal Protective Equipment (PPE) immediately after handling this product. Remove soiled clothing immediately and clean thoroughly before using again. Wash thoroughly and put on clean clothing.

SECTION 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

General Protection
Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and warm/tepid water. Keep and wash PPE separately from other laundry.

Eye/Face Protection
Safety glasses with side-shields

Hand protection
Chemical resistant nitrile rubber gloves

Body Protection
Wear long-sleeved shirt and long pants and shoes plus socks. Coveralls

Respiratory protection
When respirators are required, select NIOSH approved equipment based on actual or potential airborne concentrations and in accordance with the
Exposure Limits

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

- **Appearance**: brown
- **Physical State**: water-dispersible granules
- **Odor**: none
- **pH**: 9 - 11 (1 %) at 23 °C dispersion in water
- **Vapor Pressure**: no data available
- **Vapor Density (Air = 1)**: no data available
- **Bulk density**: 27 - 32 lb/ft³
- **Evaporation rate**: not applicable
- **Boiling Point**: no data available
- **Melting / Freezing Point**: not applicable
- **Water solubility**: dispersible
- **Minimum Ignition Energy**: no data available
- **Decomposition temperature**: no data available
SECTION 10. STABILITY AND REACTIVITY

Conditions to avoid
no data available

Incompatibility
no data available

Hazardous Decomposition Products
No decomposition products expected under normal conditions of use.

Hazardous reactions
No dangerous reaction known under conditions of normal use.

SECTION 11. TOXICOLOGICAL INFORMATION

Only acute toxicity studies have been performed on the formulated product. The non-acute information pertains to the technical-grade active ingredient, trifloxystrobin.

Acute oral toxicity
rat: LD50: > 5,050 mg/kg

Acute dermal toxicity
rat: LD50: > 2,000 mg/kg

Acute inhalation toxicity
rat: LC50: > 2.7 mg/l
Exposure time: 4 h
Determined in the form of dust.

rat: LC50: > 10.8 mg/l
Exposure time: 1 h
Determined in the form of dust.
Extrapolated from the 4 hr LC50.

Skin irritation
rabbit: Slight irritation

Eye irritation
rabbit: Mild eye irritation.

Sensitisation
guinea pig: Sensitising

mouse: Sensitising
OECD Test Guideline 429, local lymph node assay (LLNA)

Chronic toxicity
Trifloxystrobin did not cause specific target organ toxicity in experimental animal studies.

Assessment Carcinogenicity
Trifloxystrobin was not carcinogenic in lifetime feeding studies in rats and mice.
ACGIH
None.
NTP
None.
IARC
Diatomaceous earth 61790-53-2 Overall evaluation: 3
OSHA
None.

Reproductive toxicity
Trifloxystrobin caused reproduction toxicity in a two-generation study in rats only at dose levels also toxic to the parent animals. The reproduction toxicity seen with Trifloxystrobin is related to parental toxicity.

Developmental Toxicity
Trifloxystrobin caused developmental toxicity only at dose levels toxic to the dams. The developmental effects seen with Trifloxystrobin are related to maternal toxicity.

Mutagenicity
Trifloxystrobin was not mutagenic or genotoxic in a battery of in vitro and in vivo tests.

SECTION 12. ECOLOGICAL INFORMATION

Toxicity to fish
Oncorhynchus mykiss (rainbow trout)
LC50: 0.015 mg/l
Exposure time: 96 h
The value mentioned relates to the active ingredient trifloxystrobin.

Toxicity to aquatic plants
Desmodesmus subspicatus
Growth rate
IC50: 0.0053 mg/l
Exposure time: 72 h
The value mentioned relates to the active ingredient trifloxystrobin.

Acute Toxicity to Aquatic Invertebrates
Daphnia magna (Water flea)
EC50: 0.016 mg/l
Exposure time: 48 h
The value mentioned relates to the active ingredient trifloxystrobin.

Environmental precautions
Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate surface or ground water by cleaning equipment or disposal of wastes, including equipment wash water. Do not apply when weather conditions favor runoff or drift.
SECTION 13. DISPOSAL CONSIDERATIONS

General Disposal Guidance
Dispose in accordance with all local, state/provincial and federal regulations. Follow container label instructions for disposal of wastes generated during use in compliance with the product label. It is best to use all of the product in accordance with label directions. If it is necessary to dispose of unused product, please follow container label instructions and applicable local guidelines.

Container Disposal
Do not re-use empty containers. Triple rinse containers. Puncture container to avoid re-use. Consult state and local regulations regarding the proper disposal of container. Follow advice on product label and/or leaflet.

SECTION 14. TRANSPORT INFORMATION

TDG
Not dangerous goods / not hazardous material

49CFR
